

OPTO 2017 One Page Abstract Template

(Title should be centred 14 pt bold type, with Title Case Formatting - Elements, and Acronyms Should Be Capitalized)

Author name(s) [10-point type, centred, bolded]

Jan Czochralski^{1,*}, Ignacy Łukasiewicz¹, Maria Skłodowska-Curie²

Author's affiliation and full address (8-point type, centred, italicized)

1. Faculty of Physics, University of Warsaw, Pasteura 5, 02-093 Warsaw, Poland

2. Institute of Physical Chemistry Polish Academy of Sciences, Kasprzaka 44/52, 01-224 Warsaw, Poland

*corresponding author: czochralski@stud.edu.pl

This is a sample document format for the one page abstract for submissions to **OPTO2017**. The paper uploaded must be in Microsoft Word editable format (.doc, .docx). **Paper size should be A4 format** (210 mm x 297 mm). **Margins should be set for a 2.5 cm top, bottom, left, and right. For text fonts: use only 10pt Times** (roman, **bold** or *italic*), and Symbol. Sans Serif Fonts such as Arial can be used in Figures. Include all equations, drawings, figures and references within the **one page limit**. Avoid asterisks, acknowledgements, job descriptions or footnotes. **Do not add page numbers**.

Please be concise in your presentation, highlighting what is novel and original about your submission. Simple equations should be included in-line wherever possible, whereas more complex expressions should be centred and numbered if there are several. Figures should be relevant to the submission and preferably centred as shown below. They should be placed as close as possible to where they are mentioned in the text. Placing subfigures side-by-side is a convenient way to include multiple results within the one page limit. The figures can be provided in greyscale. Figure captions should be centred beneath figures and in an 8-point font. Figure captions should be indented 1 cm on both sides and justified on both right and left sides. Book of abstracts will be printed in greyscale, figures should be readable without colours.

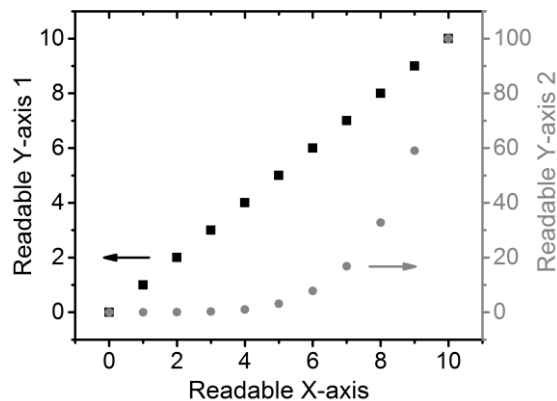

Fig. 1 The abbreviation "Fig." (for figure) should appear first, followed by the figure number, a period, and then the figure caption.

References should appear at the end of the article in the order in which they are referenced in the body of the paper. The font should be 8 point, and the references should be aligned left. A suggested format for references is given below. Within the main text, references should be designated by a number in brackets [1], and they should precede a comma or period [2]. Two references cited at once should be included together [2,3], separated by a comma, while three or more consecutive references should be indicated by the bounding numbers and a dash [1–3].
